Daivergent provides a community for neurodiverse peers to connect

At what age did you know that you had autism?

Spinarak12 Regular

This seems to be a perfect starting question for this channel. At what age were you originally diagnosed with autism?

For me, it was around 6 when I was diagnosed with it.

sam.stephenson Community Manager

I’ve told this story in a few places in slack I think but I was diagnosed at 18 with pervasive developmental disorder but I only learned that was part of ASD a few months ago (I’m 19 now)
